Costa Rica has 5% of the world's wildlife species but it occupies only 0.03% of the earth's surface. Costa Rica takes pride in having 30 national parks with more than 25% of the territory of Costa Rica marked for conservation.

National parks have economic value to both national and local economies. Costa Rica takes advantage of the growing demand by tourists visiting these national parks by charging an entry fee. National Parks contribute almost \$2bn to the Costa Rican economy. 122,465 tourists visited national parks in Costa Rica in the last two weeks of 2021.

Local economies near the national parks benefit from the creation of jobs and the increased expenditure by tourists on hotels, local shops, guides, restaurants and tours.

- (c) With reference to the data above and your knowledge of economics, evaluate the possible advantages of the government providing national parks to protect the environment in a country such as Costa Rica.
